Forecast for Monday 21 Sep 2020

Weather: Clear skies through the early hours leaving largely unbroken sunshine through much of the day. Perhaps a cloudier start across the southern foothills around Coniston. Patchy cloud filtering from the north later in the evening.

Chance of cloud free mountain/hill tops above 800m: 95%. Low cloud largely confined to the far south through morning and again through late evening.

Visibility: Very good.

Freezing Level*	2300m	2200m	2200m	2300m	2500m	2500m	2600m

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

Unbroken sunshine brings a risk of sunburn.

Forecast for Tuesday 22 Sep 2020

Weather: A much cloudier day to Monday as strengthening southwest winds bring thick cloud and spells of rain, mainly later in the afternoon.

Maximum wind: Southwest 25-35mph gusting 45mph. Gusts perhaps reaching 55mph on most exposed summits and ridges. Veering West 20-25mph through evening.

Chance of cloud free mountain/hill tops above 800m: 60% at first, falling quickly to 20% as cloud becomes extensive above around 500m.

Visibility: Generally decreasing through morning as cloud lowers, but remaining reasonable in lower slopes throughout.

Temperature: **Valleys:** 13-15C.
At 800m: 8C.
Freezing level: Above summits.
